Gladent Medical

GD-S300 Floor fixed ModelGD-S30

Integral Dental Unit

Fashion Design

Complete Functions

Quality Assurance

High Cost Performance

Graceful Figure, Ergonomic Design

The undulating and smooth lines highlight the graceful beauty of the whole machine. The ergonomic design principle is adopted to meet the needs of doctors and patients to the greatest extent.

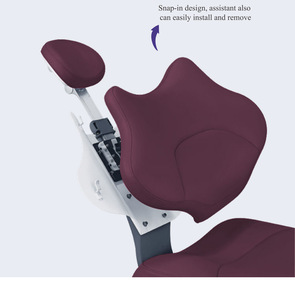

Function, Detail Display

Excellent details and comprehensive functions make high-quality Gladent dental unit

Metal detachable backrest for quick installation and removal

Our design concept combines innovation and high-quality structure to meet different work demand

Snap-in design, assistant also can easily install and remove

Push type positioning of cash aluminum headrest , can meet the demand for different people

Butterfly metal backrest As close as possible to the patient

The thin and narrow backrest provides an ideal posture for doctors and patients,Improve the comfort and efficiency of the entire treatment process

Microfiber Environmental Protection Leather Fabric

Adopting in microfiber environmentally friendly leather cushions has clear texture, soft pressing, wear-resistant fabrics and bright colors, which can reduce the fatigue of patients and improve comfort.

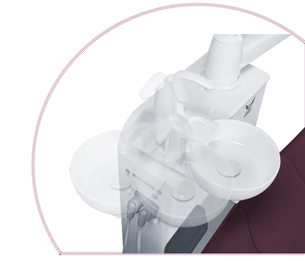

ADJUSTABLE CHAIR POSITION

Maximum adaptation to the doctor's posture

High-grade ceramic spittoon is easy to clean and keeps clean at all times

The ceramic spittoon is located on the main unit and can be rotated freely in the operating area to facilitate the patient's mouth wash

Floor-fixed Box

Stable, sturdy and safer

Invisible places are also in perfect order

The floor-fix box split design of the chassis makes the dental unit more stable and safer. Open the side cover of the unit box, you can clearly distinguish each water and air pipeline which is convenient for maintenance.
